1. Treat your online class just as you would when in person

Show up with a good attitude and get to work.

2. Hold Yourself Accountable

Be proactive and self aware to set goals & check in frequently.

3. Practice Time Management

Set reminders for upcoming due dates & plan time to make sure you've allotted enough time to complete the work.

4. Create a regular study space & stay organized

Set up a dedicated learning environment for study. Make sure you are comfortable and will be able to sit for your study duration. Know exactly where important paperwork is.

5. Eliminate Distractions

Find a quiet study space, turn your cell phone off, and only open websites for study and avoid surfing the web.

6. Figure Out How You Learn Best

Think about how you best understand new concepts and try strategies in line with those formats: auditory- use audiobooks, read aloud to yourself, study aloud, rewatch videos
visual- color code your notes, create flashcards, print out transcripts of video recordings to read while viewing, use graphic organizers.

7. Actively Participate

Engage in class discussions, ask questions in class, and check in with your teacher often during office hours

8. Practice, Practice, Practice

Don't give up when you don't understand. It takes practice to understand new concepts. Rewatch videos or reread content.

9. Stay Mentally & Physically Healthy

Take short breaks often, be physically active (walk, run, ski- get moving), set aside time to do activities you enjoy, get enough sleep, and eat foods that nourish your bodies.
