

Meal Plan FAQ

Do I have to sign my son up for a meal plan? No. We have three types of payment options available in the cafeteria. Declining balance accounts are available for all students as well as the meal plans. We also accept cash for purchases.

What are the advantages of purchasing a meal plan? The meal plan ensures that your son will be able to eat a lunch every day in the cafeteria. Each meal plan is priced with a discount built in to every meal and is not subject to tax.

How can I pay for a meal plan? Meal plans must be paid for in full at the school by either personal check or cash. Meal plan forms must accompany the payment for filing purposes. Online credit card payments cannot be used to fund meal plans. All payments must be made prior to the start of week 3 of the new semester (Prior to January 18, 2019). Any payments after that time will be deposited as declining balance funds. Meal plans are not prorated, if you turn in the form after the start of the semester you receive no discount.

What is included in a meal plan? Meal plans cover the student for the lunch period. Any extracurricular food options (Breakfast, between class snacks and after school snacks) are not covered by the meal plan and must be funded with either cash or a declining balance fund. Each plan meal includes 1 Hot Entrée, pizza, Hot or Cold sandwich or an Entree Salad and 2 sides to accompany that choice (Hand Fruit, Fruit Cup, Side Salad, Chips, Soup, Yogurt, Accompaniment Salad etc.). The Premium Plan has the added benefit of being able to select a Bottled Beverage instead of the fountain beverage. **Note:** The meal plan does not include a dessert. Desserts can be purchased with either cash or declining balance funds.

I've decided on the declining balance option. How do I add money to my son's account? There are 2 ways to fund your son's declining balance account. The most efficient way is to either send a check or cash with your son to school. When he goes to the cashier in the lunch room the funds are deposited and are available immediately for use. The second option is to visit

www.myschoolbucks.com and set up an account. You can make deposits using a credit card (a small fee applies) and track the spending of your son. This option can take up to 2 days to place the funds onto the account, depending on what time of day the deposit is made. We do not accept credit/debit cards in the cafeteria for payment.

Do you accept credit cards for payment?

Credit card payments can only be made through our online partner myschoolbucks.com. We cannot accept credit card payments at the school. Please note that credit card transactions take up to 2 business days to process and incur a fee for each deposit transaction. If you make an online deposit, the funds will not be available for your son to use until the next day.
